

Alchemia price list 2025

Alchemia Solutions is a products and services company based in Canada (QC). We propose equipment (stills, extractor, evaporators and related pieces of equipment) we develop and build with local partners. These apparatuses are designed for the production of essential oils, hydrolates, plant extracts, isolates and neutral alcohol. The smaller units have been developed for production tests, education and research while the bigger ones are designed for artisanal scale production.

We also propose consulting services in the same fields as well as classes and workshops on essential oil and plant extracts chemistry, distillation and extraction, analysis and quality.

We are also affiliated with Laboratoire Phytochemia for EO, hydrolates and plant extracts analyses.

Here are our prices for the current year:

Consulting services (still design, production optimization, training...)	135 CAD/h
Distillation on an <i>Explorer</i> with distillation report	290 CAD
This price may change for plant materials requiring a very long distillation (Myrrh, Oud, etc.)	
Please contact us for more information.	
<i>Vinci</i> (1 000 L - On four legs or tilting, insulated or not, electric or not, etc...)	On request
<i>Artisan</i> (500 L - On four legs or tilting, insulated or not, electric or not, etc..)	On request
<i>Crafter</i> (250 L - On four legs or tilting, insulated or not, electric or not, etc..)	On request
<i>Pilot</i> (80 L still/extractor, all stainless steel 304 and 316)	4990 CAD
Propane burner with a stainless-steel baffle	150 CAD
Tank modification for the addition of an electric heating element and a control sight glass	330 CAD
5.5 kw Heating element + regulator 240 V (north America or Europe/Asia)	1490 CAD
Modified lid for agitation (designed for water distillation & extraction)	1350 CAD
Caframo universal agitator (voltage and price to be confirmed at the order)	2950 CAD
Propeller 10 cm + hardened stainless-steel shaft 1.2 m x 10 mm	320 CAD
Tank extension (80 L) with cohobation tube extension, grid, O-ring, and screws	1590 CAD
Vacuum kit for the distillation of hydrolates and essential oils (under vacuum)	1950 CAD
95 Column (complete reflux distillation kit for the production of 95° ethanol)	
95 Column with a stainless column	1190 CAD
95 Column with a copper column	1290 CAD
Thermometer insert and equivalent extension	290 CAD
Insulation kit in fireproof wool (for tank and lid)	90 CAD
Copper column, copper spirals for the condenser and copper rings	390 CAD
Copper spirals for the condenser and copper rings	60 CAD

Additional EPDM O-ring	30 CAD
Additional stainless-steel grid	70 CAD
<i>Contact us for any non-listed request</i>	
Explorer (40 L still/extractor, all stainless steel 304 and 316)	3150 CAD
Propane burner with a stainless baffle	150 CAD
Stainless stand for lab uses with an electric hot plate	550 CAD
Tank modification for the addition of an electric heating element and a sight glass	300 CAD
4.5 kw Heating element + regulator 240 V (north America or Europe/Asia)	1490 CAD
Soxhlet kit 24 L (to be used with an <i>Explorer</i> with the electric heating system)	2950 CAD
Modified lid for agitation with 2 sight glasses and agitator stand	1090 CAD
Caframo universal agitator (voltage and price to be confirmed at the order)	2990 CAD
Propeller 8 cm + hardened stainless steel shaft 1 m x 10 mm	290 CAD
Tank extension (40 L) with cohobation tube extension, grid, O-ring, and screws	1150 CAD
Vacuum kit for the distillation of hydrolates and essential oils (under vacuum)	1450 CAD
Water bath + vacuum kit for solvents evaporation (under vacuum)	2990 CAD
95 Column (complete reflux distillation kit for the production of 95° ethanol)	
95 Column with a stainless column	950 CAD
95 Column with a copper column	1050 CAD
Thermometer insert and equivalent extension	250 CAD
Insulation kit in fireproof wool (for tank and lid)	75 CAD
Copper column, copper spirals for the condenser and copper rings	315 CAD
Copper spirals and copper rings	50 CAD
Pre condenser for reflux extraction	290 CAD
Viton O-ring for reflux with organic solvents	40 CAD
Additional EPDM O-ring	25 CAD
Additional stainless-steel grid	50 CAD
<i>Contact us for any non-listed request</i>	
Adept (24 L still/extractor, all stainless steel 304)	1590 CAD
Tank modification (addition of a stand for the agitator) + special lid for agitation	650 CAD
Modified lid for agitation only (requires an independant stand for the agitator)	400 CAD
Caframo compact agitator (voltage and price to be confirmed at the order)	1990 CAD
Propeller 8 cm + hardened stainless steel shaft 80 cm x 10 mm	250 CAD
<i>Contact us for any non-listed request</i>	
Nano (12 L still/extractor, all stainless steel 304)	1050 CAD
100 ml florentine flask ordered with the Nano	110 CAD
Modified lid for agitation only (requires an independent stand for the agitator)	350 CAD

Contact us for any non-listed request

Glass and stainless-steel separator 350 CAD
(for light and heavy oils, with drain valve, funnel, pipettes and spare pieces)

Lab glassware (15% off when purchased with a still)

Beaker 200 ml	8 CAD
Beaker 400 ml	12 CAD
Graduated cylinder 100 ml	12 CAD
Graduated cylinder 250 ml	20 CAD
Graduated cylinder 500 ml	25 CAD
Erlenmeyer 250 ml	15 CAD
Erlenmeyer 500 ml	20 CAD
Decantation funnel 250 ml	45 CAD
Decantation funnel 500 ml	60 CAD
Decantation funnel 1000 ml	80 CAD
Florentine flask with funnel 100 ml	65 CAD
Florentine flask with funnel 250 ml	75 CAD
Lab stand with clamp and ring	65 CAD
Ring for 1000 ml decantation funnel	15 CAD
4L amber glass bottle (refurbished)	15 CAD

All the prices are in Canadian dollars, before taxes and shipping
Prices can change at any time, please contact us for confirmation
